

THE MIRACLE OF QUANTUM LIGHT HEALING

Film-maker and holistic practitioner, **Gulrukh Khan** shares her work with KS

Quantum Laser Light Therapy, using Scalar Wave technology is catching on fast globally, as a natural and very safe way to treat inflammation, diminish pain and fortify the immune system. (FDA approved for pain relief). It has also been coined 'Light Acupuncture', as light beams are directed to energy meridian lines and pressure points in the body, which activate energy and stimulate the organs. All without needles, and just as effective.

The light emanated produces a unique wavelength and frequency, which can be varied. This enables different parts of the body to be beamed the optimum frequency for specific requirements. Sometimes two Quantum Laser machines and up to three light probes are used for deeper and more specific treatment. These are red, violet and infra-red.

DUAL ROLES

People have often asked me how I could direct and produce documentaries and be a healing facilitator at the same time. My response has always been that holistic therapies look at the whole picture, which is very similar to film. One has to look at, and work with, all the individual components before any true picture of the story emerges.

Having always been fascinated by 'energy' as a child, it seemed obvious that I would eventually go into the holistic field, as my abilities as an 'intuitive or empath' were quite developed from a young age. I seemed to be able to naturally do 'remote' or 'hands on' healing facilitation and 'channel' for people.

I inherited these capabilities from my paternal grandfather, Sir Maqsood Jung who was an acclaimed holistic practitioner and healing facilitator and who used to treat the President of India and the Nizam of Hyderabad, who was at that time the world's

richest man and had a passion for Unani or Ancient Greek medicine.

I started working with all sorts of holistic modalities as a fully qualified practitioner 20 years ago, in areas such as Clinical Aromatherapy, Therapeutic and Acupressure Massage, Energy Balancing and modified Advanced Theta Healing. Also applying Quantum Touch, and other healing techniques I had learned.

For about a year, I had been working with Quantum Scalar Wave Light Therapy and introducing it into my work; so it is an integrative therapy - combining other modalities to support it. Being fascinated by light as a film-maker (see boxed copy), and working very consciously with it, it seemed so appropriate to use light as an assistance to healing.

We all ultimately heal ourselves and no one can do that for us. We can be facilitated by others correctly channelling energy - that is there for all of us - or by using devices that do the same thing. The title of healer is a misnomer, as ultimately our healing comes from our own decision to receive and to integrate the facilitation we receive.

QUANTUM AGE

We are now living in the age of Quantum understanding, where the word 'quantum' is the new buzz word to cover a multitude of things, in terms of understanding our Cosmos and who we are as Beings.

A Scotsman named James Clerk Maxwell discovered Scalar Waves in the mid-1800s. His work led to the development of quantum physics, which later led to Einstein's Theory of Relativity. Albert Einstein and Nikola Tesla both recognized the incredible benefits of using Scalar Wave Energy.

Quantum biologist, Dr. Glen Rein refers to Maxwell's experiments with scalar waves. He said that they 'positively influence the immune and nervous systems independent of the belief systems of the individual'. According to science, 'every cell in the human body, when it is functioning at its maximum health potential, ranges between 70-90 millivolts. Disease and aging occur when the cellular energy depreciates to levels below this range'.

The human body has crystalline structures in every cell wall that are capable of holding a charge. The shape of Scalar Waves is reminiscent of the multiple helical structure of DNA as it folds in on itself. Quantum Mechanical models describe subatomic particles that can store and carry biological information along helical macromolecules like DNA. This indicates that scalar energy is capable of imprinting itself in the DNA.

WHAT IT DOES

Quantum Laser Light therapy brings the body to 'still point' or 'zero point' where the body is in its most prime position to heal itself and receive treatment.

It is deeply relaxing to receive and many people report feelings of deep pleasure and 'release' during, and after treatment. I personally use it almost every day, to just unwind the body and to boost my energy.

Practically, it is the use of intense natural light that is softly applied to the body. The light
